

OFFSPRING STATISTIC MIC MAC HUNTER 'S BESSH

Bessh is more than 12 years old and her youngest offspring is already 4,5 years old. We think that this is an appropriate time to create a statistic for her offspring. Even though test scores and merits might still change in the time to come.

Bessh is still very active and in excellent condition. She is happy in training and still competing in Veteran-Workingtests.

Bessh is still very healthy and has no problems – she is doing perfectly well and is mentally alert all the time.

Litters: 03
Number of puppies: 17 – (8/9)
With breeding license: 07 – (4/3) Quota: 41%

Hip Health scores:

Examined and officially evaluated: 17/17 Quota: 100%
Scores: A 07/17 Quota: 041%
 B 09/17 Quota: 053%
 C 01/17 Quota: 006%

→ Therefore 100% capable for breeding

Elbow Health Scores:

Examined and officially evaluated: 17/17 Quota: 100%
Scores: Free/Free 16/17 Quota: 094%
 Limit 01/17 Quota: 006%

→ Therefore 100% capable for breeding

Further health aspects:

- One offspring with SRMA at the age of nine months → because of excellent owner response completely healed
- One offspring died at the age of 5 years and 11 months (Cause: Staking injury of the lunge caused by an accident)
- One offspring died at the age of 5 years and 8 months (Cause: Unknown)

Offsprings Testresults:

JP/R ⁰¹⁾ : 11 Quota: 65%
Jagdliche Brauchbarkeit ⁰²⁾ : 08 Quota: 47%
Higher quality tests (BLP, VPS, RGP, VGP ⁰³⁾): 09 ⁰⁴⁾
More hunting tests: Bringtreue, Verbandsschweißprüfung

Other successfully passed tests:

- Search and Rescue Tests
- Various Companion-Dog-Tests
- Dummy: Beginner- and Advanced-Classes
- Working-Test: Beginner- and Advanced-Classes
- Obedience
- Agility

!!! We are especially very proud of the first and worldwide only Toller who won an International Field-Trial with an excellent result: Excellent-1 – CACT – CACIT!!!

Character-Temperament Test of the German Retriever Club 13 (74%) offsprings → all successfully!
None postponed, none failed.

Conclusion:

The results from Bessh's offspring is something we are very proud of. They have brought the Toller and especially the Tollers in Germany forward.

Breeding and the pursuit of breeding goals are a long and not always straight road, Bessh's offspring has brought us much closer to our goals and we are proud of both dogs and their owners!

⁰¹⁾ Youth hunting test in Germany or similar test abroad, sth. like Junior-Hunter for Retrievers

⁰²⁾ Basic test for all gundog breeds, 3 times with work behind 'living duck'

⁰³⁾ BLP – sth. like Senior-Hunter for Retrievers, VPS – sth. like Master-Hunter for Flushing dogs, RGP – sth. like Master-Hunter for Retrievers, VGP – sth. like Master-Hunter for Pointing dogs (first and only Toller who passed this very difficult 2 day test)

⁰⁴⁾ Quota useless because some of the dogs passed more than 1 test
